BURNS GARDENS

1953 LISTING

CHOICE IRIS & HEMEROCALLIS

"IRIS IS OUR BUSINESS"

1707 - 77TH AVENUE NORTH
MINNEAPOLIS 12, MINNESOTA

JUNIPER 4189

As we move into our fifth year of commercial iris growing, we are very happy to announce that your continued support has made possible the moving of our plantings to larger and more adequate quarters. Our new location, easily accessible to both Minneapolis and St. Paul, is now at 1707 - 77th Avenue North, Minneapolis, only about 3/4s of a mile west of West River Road (Lyndale Ave. North) on 77th Avenue North.

As in the past, we shall continue to list only those varieties that we know will do well in Minnesota gardens. Throughout the years we have grown several hundred iris introductions in our gardens on a test basis, and as a result have discarded many varieties that just won't perform well here. The ones that did perform well you will find listed on the pages of this catalog.

As you look through this catalog you will notice that we have added quite a few near Dwarf varieties. This was done because of the great demand for them. The dwarfs are rapidly approaching the popularity already attained by the tall bearded sorts, and as they are among the first of the spring flowers to bloom, they will prove to be a welcome addition to your garden.

We are short stocked on several of the varieties listed in this catalog and will unquestionably sell out of many of them, so may we suggest that you place your order early to avoid disappointment.

BURNS GARDENS

Terms of Sale

Check or money order must accompany your order. No CODs please. Do not send cash through the mail unless properly insured. Postage will be paid on order of \$3.50 or more. Shipping begins on July 15 and orders will be filled in the rotation in which they are received. When a specific shipping date is requested, we shall do our best to oblige.

We do not substitute unless requested to do so. Orders will be accepted subject to stock on hand.

We guarantee all varieties to be true to name and to be in a healthy, living condition when received. Complete cultural directions will accompany your plant.

Rather than send you as extra varieties you may already have or may not want, we are making the following sensational offer:

On order of \$4.00 or more, select from the catalog 50% more iris value. For example if your cash order amounts to \$4.00, select a total of \$6.00s worth of iris; if your cash order amounts to \$10.00, select a total of \$15.00s worth of iris; a cash order of \$20.00 would entitle you to \$30.00s worth of iris, etc. This does not apply to those varieties marked "Net", which are in exceedingly short supply, or to collections which have already been discounted.

Please make checks payable to Burns Iris Garden.

Selected Tall Bearded Varieties

ACTION FRONT.....	Large, glowing coppery red with	
EM 36	exceptionally broad falls.....	\$.75

GLOSSARY OF TERMS & ABBREVIATIONS USED IN THIS CATALOG:

- Standards- The three upper or upright petals of an iris.
Falls- The three lower or downhanging petals of the iris.
Haft- That portion of the flower where the standards and falls come together.
Plicata- An iris whose ground color is stippled, pleated, dotted or feathered with a contrasting color.
Bitone- Two shades of the same color. The standards are usually lighter.

Immediately following the name of each variety is its blooming season and height in inches. The following symbols were used to denote the blooming seasons:

VE-very early; E-early; EM-early to midseason; M-midseason; ML-midseason to late; L-late; VL-very late; EML-long season of bloom.

DWARF IRIS

For the rock garden and the front of the border, there are no flowers lovelier than the Dwarf Iris. They start blooming in April with the tulips and daffodils. They will produce flowers in great abundance and nearly all of them are extremely fragrant.

Unless otherwise specified, their price is 40¢ each or three of one variety for \$1.00.

ATROVIOLACEA	4½"	First iris to bloom. Rich, red violet.
ALBA	6 "	Creamy white
AZUREA	6 "	Beautiful light sky blue

VIOLET GEM	6 "	Tiny flowers of rich blue-violet	
		Blue Beard	75¢ each
WEE ADMIRAL	6 "	A very intense red-purple	1.50 "
YLO	8 "	Pure lemon self with flaring falls	

Intermediate Iris

These iris begin flowering just after the Dwarfs and continue well into the Tall Bearded season. They vary in height from 15 to 25 inches. The colors are bright and clean and the flowers are especially adapted for cutting purposes. All varieties listed are 40¢ each or three of one variety for \$1.00.

ABELARD	18" Bronze red. Velvet maroon red falls.
ANDALUSIAN BLUE	26" A fine sky blue
COALIE	18" Darkest blue black
CHALLENGER	26" A deep blue-purple bicolor
COSETTE	20" A lovely white
CRYSORO	26" Rich bright yellow

ELEANOR ROOSEVELT	26" Blue-bearded purple self
GAYNELLE	18" Clear, light yellow
IVORY ELF	16" Creamy ivory
LADDIE BOY	18" Velvety violet. Violet blue beard
MOONBEAM	22" Purest sulphur yellow
PESHAWAR	18" Rich brown-purple powdered silver
RED ORCHID	26" Glowing wine red

Siberian Iris

The Siberian Iris are tall and have slender, grass-like foliage, reedy stems and dainty flowers. These are ideal for arrangement purposes and unexcelled for landscaping. They are easy to grow, requiring no particular attention after they become established. We list only divisions containing five or more rhizomes as we find this to be the most satisfactory way to establish quick bloom. Each division is priced at \$1.00 unless otherwise specified.

CAEZAR	48" Very dark blue. Petals are straight- hanging.
ERIC THE RED	34" Glowing wine-red with broad flaring falls. \$4.00 div.
GEORGE WALLACE	40" Light blue with darker veining
LADY NORTHCLIFFE	32" Large flowers of brilliant deep violet blue, veined white
PEGGY PERRY	36" Broad, ruffled violet blue
SKEENA	15" Delightful dwarf Siberian of dark blue
SNOW QUEEN	32" Very showy, well formed snow white
THELMA PERRY	38" Soft china blue with white throat

HEMEROCALLIS OR DAYLILLIES

We are listing for the first time a few choice varieties of daylillies. These are among the easiest of all perennials to grow as they require no special attention whatsoever, and are completely hardy. As they bloom when few other perennials are in flower, they are especially valuable for the border. The foliage is very glossy and attractive and the blossoms are large and clean of color. The name of each variety is followed by its blooming season and height.

ARCTIC STAR: Aug.-40"	Starry trumpet shaped flower of creamy buff, fluted at edges \$2.00
BAGHDAD: July-42"	Bright red and gold bitone .75
BIJOU: Jul-Aug-24"	Ground color orange, over-cast red..... .75

NOTES....

Special Notice to Garden Clubs

We still have a few dates open for our winter speaking program for the 1953-1954 season. If you live within a 60 miles radius of the Twin Cities and can assemble an audience of 30 or more garden-minded persons, we shall be very happy to show our collection of color slides of iris and other garden flowers and answer your questions about the various phases of iris culture. Our only charge will be actual traveling expenses, roughly about 4¢ per mile. No charge will be made for engagements in the Twin Cities or their suburbs. This service will be effective from October 1, 1953 through March 31, 1954. Please contact Mrs. Edythe Burns for reservations.

We especially welcome garden visitors during the blooming season. Our peak blooming dates are about May 15 for the Dwarfs and about June 7 for the Tall bearded. Please do plan on visiting our gardens.

. . . . OUR GARDENS ARE STATE INSPECTED
